Source: Institute for Policy & Social Research, The University of Kansas; data from U.S. Census Bureau, 2017 Nonemployer Statistics.

A nonemployer business is one that has no paid employees, has annual business receipts of \$1,000 or more (\$1 or more in the construction industries), and is subject to federal income taxes. Most nonemployers are self-employed individuals operating very small unincorporated businesses, which may or may not be the owner's principal source of income.
