

Chris Wilson serves as Senior Vice President of Business Development and Integration at The University of Kansas Health System. Chris leads strategic efforts for senior leaders and the system board in enterprise planning, transactions, strategic relationships, and integration of new campuses and providers. Chris holds experience and particular interest in digital health, population health, and rural health, leading several organizations connected to The University of Kansas Health System in these areas. Chris is also founder and Executive Director of the Digital Health Co/Lab- a collaborative effort of the University of Kansas Medical Center (KUMC), the University of Kansas Health System (TUKHS), and the University of Kansas (KU). The Digital Health Co/Lab is a center focused on advancing digital health technologies and improving patient engagement, provider experience, and quality outcomes as the regional leader at the intersection of digital health

research and commercialization. Chris serves on several community, private, and not for profit boards. Prior to joining the University of Kansas Health System, Chris was a management consultant and health care attorney specializing in new care and payment models, technology, and mergers and acquisitions. Chris received his bachelor's from the University of Kansas, Master of Public Health from Boston University, and law degree from University of Colorado.
